

UPS SUPPORTS SAFE DRIVING.

The UPS Foundation has made a \$2 million grant to the Boys & Girls Clubs of America to establish and teach a safe driving course for teens.

UPS volunteers are going to 22 clubs throughout the country to teach safe driving techniques on a computerized driving simulator. Each club will be able to keep the simulator for future training programs.

"UPS drivers are among the safest on the road," said **Eduardo Martinez**, director of philanthropy and corporate relations for the UPS Foundation, through a spokeswoman. "The Road Code program gives us the opportunity to use our nationally recognized safe driving training to directly impact a need for teen driver training in local communities, like Atlanta."
